# REFINED PETROLEUM PRODUCTS

JANUARY - 1955-58

*Published by Authority of*

The Right Honourable C. D. Howe, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

JANUARY - 1955

Output of refined petroleum products in Canada during January, 1955, totalled 14,283,325 barrels compared with 13,559,633 barrels in January, 1954. The total for the month under review included 6,308,739 barrels of motor gasoline, 20,118 barrels of aviation gasoline, 2,595,055 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,101,638 barrels of diesel fuel, 2,141,820 barrels of furnace oil, 125,252 barrels of other light fuel oil, 988,095 barrels of stove oil (No. 1 fuel oil), 107,711 barrels of tractor fuel, 163,912 barrels of aviation turbine fuel, 47,600 barrels of naphtha specialties, and 890,655 barrels of other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 15,290,304 barrels of crude oil during January, 1955, compared with 14,443,175 barrels in January, 1954. Receipts of crude oil during the current month totalled 14,519,393 barrels, including 5,835,100 barrels of imported oil and 8,684,293 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 6,443,718 barrels compared with 6,519,765 barrels on the corresponding date of last year.

The consumption of liquid petroleum fuels in Canada, as computed from refinery shipments and from imports, exports and changes in marketing inventories of refiners, wholesalers and major consumers, was as follows in January, 1955, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 62,242; aviation gasoline, 186,429; motor gasoline, 4,602,862; tractor fuel, 1,729; aviation turbine fuel, 172,801; kerosene, 54,899; stove oil (No. 1 fuel oil), 1,639,496; diesel fuel, 858,354; furnace oil, 4,927,872; other light fuel oil, 211,449; and heavy fuel oil (Nos. 4, 5 and 6), 2,979,018.

Vol. 10 - No. 2

EDMOND CLOUTIER, C.M.G., O.A., D.S.P., Queen's Printer and Controller of Stationery, Ottawa, 1955.

## REFINED PETROLEUM PRODUCTS

FEBRUARY - 1955

Output of refined petroleum products in Canada during February, 1955, totalled 13,218,565 barrels compared with 12,782,666 barrels in February, 1954. The total for the month under review included 5,507,230 barrels of motor gasoline, 65,620 barrels of aviation gasoline, 2,491,599 barrels of heavy fuel oil (Nos. 4, 5 and 6), 910,944 barrels of diesel fuel, 2,147,749 barrels of furnace oil, 133,680 barrels of other light fuel oil, 878,387 barrels of stove oil (No. 1 fuel oil), 11,102 barrels of tractor fuel, 228,511 barrels of aviation turbine fuel, 56,273 barrels of naphtha specialties, and 791,654 barrels of other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 14,216,883 barrels of crude oil during February, 1955, compared with 13,594,555 barrels in February, 1954. Receipts of crude oil during the current month totalled 14,107,931 barrels, including 6,323,397 barrels of imported oil and 7,784,534 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 6,334,766 barrels compared with 5,879,880 barrels on the corresponding date of last year.

The consumption of liquid petroleum fuels in Canada, as computed from refinery shipments and from imports, exports and changes in marketing inventories of refiners, wholesalers and major consumers, was as follows in February, 1955, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 68,213; aviation gasoline, 183,689; motor gasoline, 4,408,651; tractor fuel, 3,724; aviation turbine fuel, 127,814; kerosene, 37,664; stove oil (No. 1 fuel oil), 1,565,987; diesel fuel, 832,025; furnace oil, 4,819,404; other light fuel oil, 204,616; and heavy fuel oil (Nos. 4, 5 and 6), 2,828,147.

CANADA

# REFINED PETROLEUM PRODUCTS

MARCH, 1955

*Published by Authority of*

The Right Honourable C. D. Howe, Minister of Trade and Commerce

DOMINION BUREAU OF STATISTICS

Industry and Merchandising Division

Metal and Chemical Products Section

## INTRODUCTORY NOTE

This bulletin constitutes the initial presentation of the "new" Refined Petroleum Products report. The information in this report was developed from data supplied on a new form designed to replace the Refinery Report and the Wholesale Marketing Report forms which have been used up to this time. The "new" form is the result of discussions with representatives of the petroleum industry and was designed to enable the reporting companies to file a consolidated report covering all operations in the producing, refining and marketing of petroleum products. The consolidated report which is one of the features of the new procedure eliminates the need of filing separate reports for each refinery as was the custom under the old basis.

It is hoped that this new approach to collecting data on refined petroleum products will make it possible to eliminate serious discrepancies which were evident in some aspects of the previous presentation particularly as regards to "Domestic Consumption" figures. Import data which are an important consideration in developing the latter were obtained in part by circularizing all known importers. Maintaining the currency of such a list posed problems for the Bureau and as a result it was difficult to obtain complete coverage of all importations. In consequence, the serious discrepancies mentioned above were introduced. The new procedure utilizes Trade of Canada figures compiled by the External Trade Section of the Bureau and, therefore, reduces considerably the possibility of error from this direction.

The instruction sheet used in connection with the "new" survey is reproduced on the following pages to assist in the interpretation of the headings appearing in the tables.

INSTRUCTION SHEET

FOR THE NEW

MONTHLY REPORT ON REFINED PETROLEUM PRODUCTS

(A) RAW MATERIALS SUPPLY

Crude Oil -

Production - Report gross company operated production of crude oil, credited to the provinces in which produced.

Purchases in Canada - Report purchases of crude oil from other Canadian companies, credited to the provinces in which purchased.

Imports - Report all crude oil received from sources outside Canada, credited to the provinces in which landed.

Inventories - Report all stocks of crude oil in Canada in the field, in pipe-line systems and in refineries.

Sales - Report all sales of crude oil to other Canadian companies, and separately all sales for export from Canada. "Pipe-line allowance" should be considered as a sale to pipe-lines.

Transfers - Report all movements of crude oil from original sources of supply to refineries located in another province.

Losses - Report all losses of crude oil between the point of production or of import and actual charging to refinery stills.

Natural Gas Liquids -

Production - Report field production of propane, butane, natural gasoline, etc.

Imports - Report only casinghead, natural gasoline, etc. Do not include imports of finished liquefied petroleum gases.

Other Materials Used - Include non-petroleum additives, such as lead, furnace fuel inhibitors, etc.

The total of crude oil consumed, natural gas liquids consumed, and other materials used - both domestic and imported - should equal the total of the first three columns of Section C, which refers to finished petroleum products.

(B) RECEIPTS OF CRUDE OIL

Report actual receipts at refineries. Give separate figures for each supplying country in the case of imports, and for each province and each major field in the case of Canadian crude.

(C) FINISHED PETROLEUM PRODUCTS

Refinery production - Report, by product and by provinces, the production from crude and from other materials actually processed in the refineries.

Blending stocks - Report, by product and by provinces, the blending stocks and other ingredients actually used in current production. Field plant L.P.G. not blended with other products at refineries should be included under Canadian blending stocks, either as L.P.G. or as petro-chemical feed stocks, depending on the use to which it is put.

Purchases in Canada - Report purchases of petroleum products from other refineries in Canada, also purchases from any other sources in Canada. Show separately the purchases from other reporting companies. See the separate list for the names of the reporting companies.

Imports - Report all finished or unfinished products received from sources outside Canada. Care should be taken to ensure that imports reported here agree with the customs entry statement for the month of purchase, the product category and the province of entry.

Inventories - Report all refinery and marketing inventories, corrected by any exchange balances, these balances to be added or deducted in the province where the exchange is to be repaid. Companies will consider balances owing them on exchange as part of their inventory. Conversely, balances due on exchange will not be included in inventory.

Net transfers will reflect the balance of interprovincial and inter-product movements, whether at the refinery or the marketing level.

Sales to reporting companies - See attached list for the names of reporting companies.

Exports - Report all products sold for delivery to points outside Canada.

Domestic demand will be arrived at by the addition and subtraction of all preceding columns, and represents the domestic disappearance of supplies.

(C) FINISHED PETROLEUM PRODUCTS (Concluded)

Losses - Report all refinery and marketing losses.

Own consumption - Report all amounts produced or purchased and used in own refineries, etc.

Sales will be arrived at by deducting losses and own consumption from the total compiled for domestic demand and should agree with the total sales actually experienced by the reporting company, other than sales for exports and to other reporting companies.

Unfinished products - Include products in process, semi-finished materials imported and retained in the refinery for further processing, such as catalytic feed stock, lube distillates, alkylate, etc. Under refinery production, the actual net consumption of unfinished products during the month will show as a minus quantity, while an accumulation of unfinished products will show as a plus quantity.

Lubrication oils and greases - Combine the figures for oils and greases, except in last column, which refers to net sales. Give estimated breakdown of sales if actual figures are not readily available from your records.

Kerosene and stove oil - Combine the figures for kerosene and stove oil, except in last column, which refers to net sales. Give estimated breakdown of sales if actual figures are not readily available from your records.

REFINED PETROLEUM PRODUCTS

MARCH - 1955

Output of refined petroleum products in Canada during March, 1955, totalled 14,588,549 barrels compared with 11,932,099 barrels in March, 1954. The total for the month under review included 5,781,244 barrels of motor gasoline, 42,877 barrels of aviation gasoline, 3,287,902 barrels of heavy fuel oil (Nos. 4, 5 and 6), 984,541 barrels of diesel fuel, 2,039,054 barrels of furnace oil, 147,743 barrels of other light fuel oil, 1,050,581 barrels of kerosene and stove oil (No. 1 fuel oil), 42,333 barrels of tractor fuel, 226,451 barrels of aviation turbine fuel, 73,954 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 14,348,224 barrels of crude oil during March, 1955, compared with 12,490,886 barrels in March, 1954. Receipts of crude oil during the current month totalled 14,175,094 barrels, including 6,905,072 barrels of imported oil and 7,270,022 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 18,021,389 barrels. This latter figure includes stocks held at the field, in pipeline systems and in refineries. Comparable figures on this basis are not available for 1954.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in March, 1955, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 89,501; aviation gasoline, 278,266; motor gasoline, 4,990,786; tractor fuel, 12,557; aviation turbine fuel, 208,760; kerosene, 53,849; stove oil (No. 1 fuel oil), 1,547,122; diesel fuel, 1,071,967; furnace oil, 4,579,371; other light fuel oil, 201,867; and heavy fuel oil (Nos. 4, 5 and 6), 2,953,495.

**NOTE:** It is the practice of the External Trade Section to close off their records for a particular month with entries received on the last working day; accordingly, there may be some carry over into the next month. That is to say, imports during the last few days of a month may be recorded in the totals for the following month. Figures shown in Table 3 have been adjusted by pulling back any carry over and Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

EDMOND CLOUTIER, C.M.G., O.A., D.S.P., Queen's Printer and Controller of Stationery, Ottawa, 1955.

## REFINED PETROLEUM PRODUCTS

APRIL - 1955

Output of refined petroleum products in Canada during April, 1955, totalled 13,871,699 barrels compared with 10,089,882 barrels in April, 1954. The total for the month under review included 5,645,133 barrels of motor gasoline, 57,313 barrels of aviation gasoline, 2,758,852 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,453,848 barrels of diesel fuel, 1,698,605 barrels of furnace oil, 96,227 barrels of other light fuel oil, 783,000 barrels of stove oil (No. 1 fuel oil), 49,522 barrels of tractor fuel, 203,582 barrels of aviation turbine fuel, 72,333 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 13,626,101 barrels of crude oil during April, 1955, compared with 11,257,303 barrels in April, 1954. Receipts of crude oil during the current month totalled 14,460,757 barrels, including 6,845,339 barrels of imported oil and 7,615,418 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 17,421,133 barrels. This latter figure includes stocks held at the field, in pipeline systems and in refineries. Comparable figures on this basis are not available for 1954.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in April, 1955, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 102,484; aviation gasoline, 287,363; motor gasoline, 5,345,974; tractor fuel, 17,665; aviation turbine fuel, 175,628; kerosene, 45,604; stove oil (No. 1 fuel oil), 713,216; diesel fuel, 894,180; furnace oil, 2,441,670; other light fuel oil, 132,206; and heavy fuel oil (Nos. 4, 5 and 6), 3,006,705.

**NOTE:** It is the practice of the External Trade Section to close off their records for a particular month with entries received on the last working day; accordingly, there may be some carry over into the next month. That is to say, imports during the last few days of a month may be recorded in the totals for the following month. Figures shown in Table 3 have been adjusted by pulling back any carry over and Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

## REFINED PETROLEUM PRODUCTS

MAY - 1955

Output of refined petroleum products in Canada during May, 1955, totalled 16,385,839 barrels compared with 13,894,333 barrels in May, 1954. The total for the month under review included 6,395,646 barrels of motor gasoline, 110,059 barrels of aviation gasoline, 3,360,032 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,689,830 barrels of diesel fuel, 1,882,535 barrels of furnace oil, 150,208 barrels of other light fuel oil, 896,240 barrels of kerosene stove oil (No. 1 fuel oil), 56,535 barrels of tractor fuel, 188,330 barrels of aviation turbine fuel, 1,656,424 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 16,208,718 barrels of crude oil during May, 1955, compared with 14,560,414 barrels in May, 1954. Receipts of crude oil during the current month totalled 16,830,150 barrels, including 8,042,188 barrels of imported oil and 8,787,962 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 18,365,231 barrels. This latter figure includes stocks held at the field, in pipeline systems and in refineries. Comparable figures on this basis are not available for 1954.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in May, 1955, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 110,194; aviation gasoline, 370,919; motor gasoline, 7,314,568; tractor fuel, 36,638; aviation turbine fuel, 214,013; kerosene, 44,704; stove oil (No. 1 fuel oil), 436,221; diesel fuel, 1,223,790; furnace oil, 1,343,521; other light fuel oil, 110,502; and heavy fuel oil (Nos. 4, 5 and 6), 3,801,449.

**NOTE:** It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry over into the next month. That is to say, imports during the last few days of a month at customs' port such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in that month figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry over Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

# REFINED PETROLEUM PRODUCTS

JUNE, 1955

*Published by Authority of*

The Right Honourable C. D. Howe, Minister of Trade and Commerce

DOMINION BUREAU OF STATISTICS

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

JUNE - 1955

Output of refined petroleum products in Canada during June, 1955, totalled 16,854,750 barrels compared with 14,221,235 barrels in June, 1954. The total for the month under review included 6,190,870 barrels of motor gasoline, 92,293 barrels of aviation gasoline, 3,079,806 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,498,366 barrels of diesel fuel, 2,253,807 barrels of furnace oil, 100,027 barrels of other light fuel oil, 685,614 barrels of kerosene stove oil (No. 1 fuel oil), 66,617 barrels of tractor fuel, 353,901 barrels of aviation turbine fuel, 2,533,449 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 16,648,303 barrels of crude oil during June, 1955, compared with 15,176,099 barrels in June, 1954. Receipts of crude oil during the current month totalled 17,106,734 barrels, including 7,354,014 barrels of imported oil and 9,752,720 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 18,862,260 barrels. This latter figure includes stocks held at the field, in pipeline systems and in refineries. Comparable figures on this basis are not available for 1954.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in June, 1955, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 156,016; aviation gasoline, 344,948; motor gasoline, 7,480,306; tractor fuel, 36,841; aviation turbine fuel, 201,708; kerosene, 39,223; stove oil (No. 1 fuel oil), 306,951; diesel fuel, 1,438,840; furnace oil, 1,196,502; other light fuel oil, 96,837; and heavy fuel oil (Nos. 4, 5 and 6), 3,919,352.

**NOTE:** It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry over into the next month. That is to say, imports during the last few days of a month at customs' port such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in that month's figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry over. Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

# REFINED PETROLEUM PRODUCTS

JULY, 1955

*Published by Authority of*

The Right Honourable C. D. Howe, Minister of Trade and Commerce

DOMINION BUREAU OF STATISTICS

Industry and Merchandising Division

Metal and Chemical Products Section

Vol. 10, No. 7

## REFINED PETROLEUM PRODUCTS

JULY - 1955

Output of refined petroleum products in Canada during July, 1955, totalled 17,873,448 barrels compared with 14,581,086 barrels in July, 1954. The total for the month under review included 6,648,247 barrels of motor gasoline, 108,880 barrels of aviation gasoline, 3,094,666 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,883,653 barrels of diesel fuel, 2,067,202 barrels of furnace oil, 96,439 barrels of other light fuel oil, 966,544 barrels of kerosene and stove oil (No. 1 fuel oil), 45,208 barrels of tractor fuel, 150,760 barrels of aviation turbine fuel, 2,811,849 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 17,671,389 barrels of crude oil during July, 1955, compared with 14,008,461 barrels in July, 1954. Receipts of crude oil during the current month totalled 18,580,887 barrels, including 8,444,009 barrels of imported oil and 10,136,878 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 19,650,323 barrels. This latter figure includes stocks held at the field, in pipeline systems and in refineries. Comparable figures on this basis are not available for 1954.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in July, 1955, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 98,449; aviation gasoline, 398,879; motor gasoline, 7,450,053; tractor fuel, 25,491; aviation turbine fuel, 204,032; kerosene, 62,254; stove oil (No. 1 fuel oil), 202,311; diesel fuel, 1,377,967; furnace oil, 1,041,058; other light fuel oil, 62,205; and heavy fuel oil (Nos. 4, 5 and 6), 3,475,077.

**NOTE:** It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in that month's figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry over; Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

CANADA

# REFINED PETROLEUM PRODUCTS

AUGUST, 1955

*Published by Authority of*

The Right Honourable C. D. Howe, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

AUGUST - 1955

Output of refined petroleum products in Canada during August, 1955, totalled 18,057,865 barrels compared with 14,598,405 barrels in August, 1954. The total for the month under review included 7,138,464 barrels of motor gasoline, 163,009 barrels of aviation gasoline, 3,111,600 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,569,466 barrels of diesel fuel, 2,582,415 barrels of furnace oil, 93,571 barrels of other light fuel oil, 716,351 barrels of kerosene and stove oil (No. 1 fuel oil), 51,277 barrels of tractor fuel, 199,170 barrels of aviation turbine fuel, 2,432,542 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 17,810,626 barrels of crude oil during August, 1955, compared with 15,264,283 barrels in August, 1954. Receipts of crude oil during the current month totalled 17,043,082 barrels, including 7,589,649 barrels of imported oil and 9,453,433 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 19,658,790 barrels. This latter figure includes stocks held at the field, in pipeline systems and in refineries. Comparable figures on this basis are not available for 1954.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in August, 1955, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 165,076; aviation gasoline, 380,373; motor gasoline, 8,367,460; tractor fuel, 28,096; aviation turbine fuel, 225,100; kerosene, 37,663; stove oil (No. 1 fuel oil), 354,314; diesel fuel, 1,634,465; furnace oil, 1,603,116; other light fuel oil, 83,764; and heavy fuel oil (Nos. 4, 5 and 6), 3,519,613.

NOTE: It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry over into the next month. That is to say, imports during the last few days of a month at customs' port such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in that month's figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry over into Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

Vol. 10, No. 9

## REFINED PETROLEUM PRODUCTS

SEPTEMBER - 1955

Output of refined petroleum products in Canada during September, 1955, totalled 17,231,493 barrels compared with 13,229,245 barrels in September, 1954. The total for the month under review included 6,662,397 barrels of motor gasoline, 96,356 barrels of aviation gasoline, 3,125,134 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,399,395 barrels of diesel fuel, 2,405,172 barrels of furnace oil, 96,619 barrels of other light fuel oil, 893,076 barrels of kerosene and stove oil (No. 1 fuel oil), 53,114 barrels of tractor fuel, 190,227 barrels of aviation turbine fuel, 2,310,003 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 16,865,966 barrels of crude oil during September, 1955, compared with 13,763,289 barrels in September, 1954. Receipts of crude oil during the current month totalled 16,671,387 barrels, including 7,430,962 barrels of imported oil and 9,240,425 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 19,144,202 barrels. This latter figure includes stocks held at the field, in pipeline systems and in refineries. Comparable figures on this basis are not available for 1954.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in September, 1955, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 107,434; aviation gasoline, 337,020; motor gasoline, 7,717,958; tractor fuel, 17,726; aviation turbine fuel, 233,283; kerosene, 61,375; stove oil (No. 1 fuel oil), 782,927; diesel fuel, 1,496,606; furnace oil, 1,965,685; other light fuel oil, 110,377; and heavy fuel oil (Nos. 4, 5 and 6), 4,028,452.

**NOTE:** It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in that month's figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry over. Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

Vol. 10, No. 10

## REFINED PETROLEUM PRODUCTS

OCTOBER - 1955

Output of refined petroleum products in Canada during October, 1955, totalled 16,292,787 barrels compared with 14,250,538 barrels in October, 1954. The total for the month under review included 6,243,158 barrels of motor gasoline, 87,304 barrels of aviation gasoline, 3,292,340 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,057,755 barrels of diesel fuel, 2,440,994 barrels of furnace oil, 86,629 barrels of other light fuel oil, 780,336 barrels of kerosene and stove oil (No. 1 fuel oil), 55,995 barrels of tractor fuel, 315,310 barrels of aviation turbine fuel, 1,932,966 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 15,951,299 barrels of crude oil during October, 1955, compared with 15,080,660 barrels in October, 1954. Receipts of crude oil during the current month totalled 16,795,765 barrels, including 8,189,701 barrels of imported oil and 8,606,064 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 21,219,653 barrels. This latter figure includes stocks held at the field, in pipeline systems and in refineries. Comparable figures on this basis are not available for 1954.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in October, 1955, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 114,399; aviation gasoline, 256,803; motor gasoline, 6,669,526; tractor fuel, 12,749; aviation turbine fuel, 233,878; kerosene, 78,149; stove oil (No. 1 fuel oil), 1,300,003; diesel fuel, 1,557,750; furnace oil, 2,697,249; other light fuel oil, 111,708; and heavy fuel oil (Nos. 4, 5 and 6), 3,814,245.

**NOTE:** It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in that month's figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over; Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

# REFINED PETROLEUM PRODUCTS

## JANUARY, 1956

*Published by Authority of*  
The Right Honourable C. D. Howe, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**  
Industry and Merchandising Division  
Metal and Chemical Products Section

6512-541-16

Price 25 cents

Vol. 11, No. 1

INSTRUCTION SHEET

FOR THE NEW

MONTHLY REPORT ON REFINED PETROLEUM PRODUCTS

(A) RAW MATERIALS SUPPLY

Crude Oil -

Production - Report gross company operated production of crude oil, credited to the provinces in which produced.

Purchases in Canada - Report purchases of crude oil from other Canadian companies, credited to the provinces in which purchased.

Imports - Report all crude oil received from sources outside Canada, credited to the provinces in which landed.

Inventories - Report all stocks of crude oil in Canada in the field, in pipeline systems and in refineries.

Sales - Report all sales of crude oil to other Canadian companies, and separately all sales for export from Canada. "Pipeline allowance" should be considered as a sale to pipelines.

Transfers - Report all movements of crude oil from original sources of supply to refineries located in another province.

Losses - Report all losses of crude oil between the point of production or of import and actual charging to refinery stills.

Natural Gas Liquids -

Production - Report field production of propane, butane, natural gasoline, etc.

Imports - Report only casinghead, natural gasoline, etc. Do not include imports of finished liquefied petroleum gases.

Other Materials Used - Include non-petroleum additives, such as lead, furnace fuel inhibitors, etc.

The total of crude oil consumed, natural gas liquids consumed, and other materials used - both domestic and imported - should equal the total of the first three columns of Section C, which refers to finished petroleum products.

(B) RECEIPTS OF CRUDE OIL

Report actual receipts at refineries. Give separate figures for each supplying country in the case of imports, and for each province and each major field in the case of Canadian crude.

(C) FINISHED PETROLEUM PRODUCTS

Refinery production - Report, by product and by provinces, the production from crude and from other materials actually processed in the refineries.

Blending stocks - Report, by product and by provinces, the blending stocks and other ingredients actually used in current production. Field plant L.P.G. not blended with other products at refineries should be included under Canadian blending stocks, either as L.P.G. or as petro-chemical feed stocks, depending on the use to which it is put.

Purchases in Canada - Report purchases of petroleum products from other refineries in Canada, also purchases from any other sources in Canada. Show separately the purchases from other reporting companies. See the separate list for the names of the reporting companies.

Imports - Report all finished or unfinished products received from sources outside Canada. Care should be taken to ensure that imports reported here agree with the customs entry statement for the month of purchase, the product category and the province of entry.

Inventories - Report all refinery and marketing inventories, corrected by any exchange balances, these balances to be added or deducted in the province where the exchange is to be repaid. Companies will consider balances owing them on exchange as part of their inventory. Conversely balances due on exchange will not be included in inventory.

Net transfers will reflect the balance of interprovincial and inter-product movements, whether at the refinery or the marketing level.

Sales to reporting companies - See attached list for the names of reporting companies.

Exports - Report all products sold for delivery to points outside Canada.

Domestic demand will be arrived at by the addition and subtraction of all preceding columns, and represents the domestic disappearance of supplies.

Losses - Report all refinery and marketing losses.

(C) FINISHED PETROLEUM PRODUCTS (Con.)

Own consumption - Report all amounts produced or purchased and used in own refineries, etc.

Sales will be arrived at by deducting losses and own consumption from the total compiled for domestic demand and should agree with the total sales actually experienced by the reporting company, other than sales for exports and to other reporting companies.

Unfinished products - Include products in process, semi-finished materials imported and retained in the refinery for further processing, such as catalytic feed stock, lube distillates, alkylate, etc. Under refinery production, the actual net consumption of unfinished products during the month will show as a minus quantity, while an accumulation of unfinished products will show as a plus quantity.

Lubrication oils and greases - Combine the figures for oils and greases, except in last column, which refers to net sales. Give estimated breakdown of sales if actual figures are not readily available from your records.

Kerosene and stove oil - Combine the figures for kerosene and stove oil, except in last column, which refers to net sales. Give estimated breakdown of sales if actual figures are not readily available from your records.

## REFINED PETROLEUM PRODUCTS

JANUARY - 1956

Output of refined petroleum products in Canada during January, 1956, totalled 19,004,764 barrels compared with 14,283,325 barrels in January, 1955. The total for the month under review included 6,846,820 barrels of motor gasoline, 34,158 barrels of aviation gasoline, 4,151,757 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,520,672 barrels of diesel fuel, 3,007,951 barrels of light fuel oil, 1,323,657 barrels of kerosene and stove oil (No. 1 fuel oil), 62,727 barrels of tractor fuel, 285,074 barrels of aviation turbine fuel, 1,771,948 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 18,665,679 barrels of crude oil during January, 1956, compared with 15,290,304 barrels in January, 1955. Receipts of crude oil during the current month totalled 18,622,600 barrels, including 7,895,449 barrels of imported oil and 10,727,151 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 20,209,327 barrels. This latter figure includes stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in January, 1956, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 95,827; aviation gasoline, 307,638; motor gasoline, 5,061,732; tractor fuel, 762; aviation turbine fuel, 247,416; kerosene and stove oil, 2,214,713; diesel fuel, 1,152,750; light fuel oil, 6,891,369; and heavy fuel oil (Nos. 4, 5 and 6), 3,709,106.

NOTE: It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in that month's figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over; Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

Vol. 11, No. 2

## REFINED PETROLEUM PRODUCTS

FEBRUARY - 1956

Output of refined petroleum products in Canada during February, 1956, totalled 17,720,499 barrels compared with 13,218,565 barrels in February, 1955. The total for the month under review included 6,094,816 barrels of motor gasoline, 50,681 barrels of aviation gasoline, 3,872,311 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,384,367 barrels of diesel fuel, 2,771,049 barrels of light fuel oil (Nos. 2 and 3), 1,287,187 barrels of kerosene and stove oil (No. 1 fuel oil), 66,787 barrels of tractor fuel, 208,186 barrels of aviation turbine fuel, 1,985,115 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 17,339,694 barrels of crude oil during February, 1956, compared with 14,216,883 barrels in February, 1955. Receipts of crude oil during the current month totalled 16,996,779 barrels, including 7,228,-188 barrels of imported oil and 9,768,591 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 20,001,799 barrels. This latter figure includes stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in February, 1956, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 90,195; aviation gasoline, 260,143; motor gasoline, 4,836,472; tractor fuel, 1,155; aviation turbine fuel, 251,784; kerosene and stove oil, 1,773,072; diesel fuel, 1,189,503; light fuel oil, 5,971,570; and heavy fuel oil (Nos. 4, 5 and 6), 3,542,397.

NOTE: ... figures not appropriate or not applicable.

- nil or zero.

Above figures refer only to operations of companies which have refineries in Canada.  
For precise definitions of terms refer to the report for March, 1955.

NOTE: It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in the month's figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over; Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

## REFINED PETROLEUM PRODUCTS

MARCH - 1956

Output of refined petroleum products in Canada during March, 1956, totalled 17,288,116 barrels compared with 14,588,549 barrels in March, 1955. The total for the month under review included 5,980,453 barrels of motor gasoline, 73,945 barrels of aviation gasoline, 3,587,063 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,530,316 barrels of diesel fuel, 2,680,593 barrels of light fuel oil, 1,254,443 barrels of kerosene and stove oil (No. 1 fuel oil), 70,130 barrels of tractor fuel, 316,686 barrels of aviation turbine fuel, 1,794,487 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 16,783,062 barrels of crude oil during March, 1956, compared with 14,348,224 barrels in March, 1955. Receipts of crude oil during the current month totalled 16,986,636 barrels, including 6,798,272 barrels of imported oil and 10,188,364 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 20,030,399 barrels compared with 18,021,389 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in March, 1956, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 95,073; aviation gasoline, 280,237; motor gasoline, 5,400,157; tractor fuel, 6,264; aviation turbine fuel, 237,308; kerosene and stove oil (No. 1 fuel oil), 1,828,936; diesel fuel, 1,447,692; light fuel oil (Nos. 2 and 3), 5,797,869; and heavy fuel oil (Nos. 4, 5 and 6), 3,567,933.

**NOTE:** It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in the month's figures but are carried-over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over; Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

# REFINED PETROLEUM PRODUCTS

APRIL, 1956

*Published by Authority of*

The Right Honourable C. D. Howe, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

APRIL - 1956

Output of refined petroleum products in Canada during April, 1956, totalled 16,716,510 barrels compared with 13,874,908 barrels in April, 1955. The total for the month under review included 5,139,875 barrels of motor gasoline, 60,402 barrels of aviation gasoline, 3,637,741 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,769,765 barrels of diesel fuel, 2,029,698 barrels of light fuel oil, 1,769,765 barrels of kerosene and stove oil (No. 1 fuel oil), 52,858 barrels of tractor fuel, 327,020 barrels of aviation turbine fuel, 1,929,385 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 16,380,949 barrels of crude oil during April, 1956, compared with 13,625,156 barrels in April, 1955. Receipts of crude oil during the current month totalled 16,630,778 barrels, including 7,207,715 barrels of imported oil and 9,423,063 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 19,922,652 barrels compared with 17,421,133 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in April, 1956, all figures being in barrels of 35 Imperial gallons; Naphtha specialties, 106,961; aviation gasoline, 302,554; motor gasoline, 5,482,714; tractor fuel, 4,493; aviation turbine fuel, 281,649; kerosene and stove oil (No. 1 fuel oil), 968,681; diesel fuel, 1,214,018; light fuel oil (Nos. 2 and 3), 3,715,610; and heavy fuel oil (Nos. 4, 5 and 6), 3,447,651.

**NOTE:** It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in the month's figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over; Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

EDMOND CLOUTIER, C.M.G., O.A., D.S.P., Queen's Printer and Controller of Stationery, Ottawa, 1956.

## REFINED PETROLEUM PRODUCTS

MAY - 1956

Output of refined petroleum products in Canada during May, 1956, totalled 17,156,975 barrels compared with 16,385,839 barrels in May, 1955. The total for the month under review included 6,229,539 barrels of motor gasoline, 92,226 barrels of aviation gasoline, 3,627,783 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,701,373 barrels of diesel fuel, 2,571,077 barrels of light fuel oil, 919,042 barrels of kerosene and stove oil (No. 1 fuel oil), 74,395 barrels of tractor fuel, 297,628 barrels of aviation turbine fuel, 1,643,912 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 16,945,732 barrels of crude oil during May, 1956, compared with 16,208,718 barrels in May, 1955. Receipts of crude oil during the current month totalled 17,577,082 barrels, including 8,285,760 barrels of imported oil and 9,291,322 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 20,554,907 barrels compared with 18,365,231 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in May, 1956, comparable figures for corresponding month of 1955 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 118,491 (110,194); aviation gasoline, 354,895 (370,919); motor gasoline, 8,007,524 (7,323,192); tractor fuel, 28,438 (37,139); aviation turbine fuel, 305,901 (214,013); kerosene and stove oil (No. 1 fuel oil), 761,784 (480,925); diesel fuel, 1,569,964 (1,223,790); light fuel oil (Nos. 2 and 3), 2,643,878 (1,454,023); and heavy fuel oil (Nos. 4, 5 and 6), 4,840,906 (3,807,532).

**NOTE:** 1. It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over in the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in the month's figures and are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over; Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

2. The above procedure applied to the tabulations up to and including April, 1956; however, due to the lateness of the availability of the import data, this procedure has been discontinued starting with the current month and the import figures shown in Table 3 are unadjusted totals based on Table 4.

Vol. 11, No. 6

## REFINED PETROLEUM PRODUCTS

JUNE - 1956

Output of refined petroleum products in Canada during June, 1956, totalled 19,010,395 barrels compared with 16,854,750 barrels in June, 1955. The total for the month under review included 6,765,031 barrels of motor gasoline, 74,581 barrels of aviation gasoline, 3,894,660 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,853,109 barrels of diesel fuel, 2,742,945 barrels of light fuel oil, 823,282 barrels of kerosene and stove oil (No. 1 fuel oil), 65,829 barrels of tractor fuel, 342,487 barrels of aviation turbine fuel, 2,448,471 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 18,801,855 barrels of crude oil during June, 1956, compared with 16,648,303 barrels in June, 1955. Receipts of crude oil during the current month totalled 19,546,729 barrels, including 9,728,337 barrels of imported oil and 9,818,392 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 3,765,297 barrels compared with 18,862,260 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in June, 1956, comparable figures for corresponding month of 1955 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 141,750 (156,016); aviation gasoline, 382,455 (344,948); motor gasoline, 7,966,533 (7,480,306); tractor fuel, 24,931 (36,841); aviation turbine fuel, 277,889 (201,708); kerosene and stove oil (No. 1 fuel oil), 334,050 (346,174); diesel fuel, 1,665,895 (1,438,840); light fuel oil (Nos. 2 and 3), 1,349,199 (1,293,339); and heavy fuel oil (Nos. 4, 5 and 6) 3,909,293 (3,927,992).

**NOTE:** 1. It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over into the next month. That is to say, imports during the last few days of a month at customs' posts such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in the monthly figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over. Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

2. The above procedure applied to the tabulations up to and including April, 1956; however, due to the lateness of the availability of the import data, this procedure has been discontinued starting with the current month and the import figures shown in Table 3 are unadjusted totals based on Table 4.

Vol. 11, No. 7

## REFINED PETROLEUM PRODUCTS

JULY - 1956

Output of refined petroleum products in Canada during July, 1956, totalled 21,478,996 barrels compared with 17,873,448 barrels in July, 1955. The total for the month under review included 7,159,441 barrels of motor gasoline, 115,014 barrels of aviation gasoline, 3,860,039 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,135,534 barrels of diesel fuel, 3,274,387 barrels of light fuel oil, 1,075,392 barrels of kerosene and stove oil (No. 1 fuel oil), 39,671 barrels of tractor fuel, 460,789 barrels of aviation turbine fuel, 3,358,729 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 21,247,715 barrels of crude oil during July, 1956, compared with 17,671,389 barrels in July, 1955. Receipts of crude oil during the current month totalled 20,885,447 barrels, including 9,611,991 barrels of imported oil and 11,273,456 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 21,088,717 barrels compared with 19,650,323 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in July, 1956, comparable figures for corresponding month of 1955 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 105,755 (98,449); aviation gasoline, 397,123 (398,879); motor gasoline, 8,418,922 (7,450,053); tractor fuel, 17,719 (25,491); aviation turbine fuel, 264,516 (204,032); kerosene and stove oil (No. 1 fuel oil), 324,659 (264,565); diesel fuel, 1,758,644 (1,377,967); light fuel oil (Nos. 2 and 3), 888,004 (1,103,263); and heavy fuel oil (Nos. 4, 5 and 6), 4,391,419 (3,475,077).

NOTE: 1. It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in the month's figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over; Table therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

2. The above procedure applied to the tabulations up to and including April, 1956; however, due to the lateness of the availability of the import data, this procedure has been discontinued starting with the current month and the import figures shown in Table 3 are unadjusted totals based on Table 4.

## REFINED PETROLEUM PRODUCTS

AUGUST - 1956

Output of refined petroleum products in Canada during August, 1956, totalled 21,903,145 barrels compared with 18,057,865 barrels in August, 1955. The total for the month under review included 7,873,400 barrels of motor gasoline, 66,792 barrels of aviation gasoline, 3,982,112 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,046,527 barrels of diesel fuel, 3,330,850 barrels of light fuel oil, 1,174,291 barrels of kerosene and stove oil (No. 1 fuel oil), 64,478 barrels of tractor fuel, 398,382 barrels of aviation turbine fuel, 2,966,313 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 21,551,150 barrels of crude oil during August, 1956, compared with 17,810,626 barrels in August, 1955. Receipts of crude oil during the current month totalled 22,276,271 barrels, including 10,936,587 barrels of imported oil and 11,339,684 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,190,232 barrels compared with 19,658,790 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in August, 1956, comparable figures for corresponding month of 1955 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 105,473 (165,076); aviation gasoline 376,671 (380,373); motor gasoline, 8,801,177 (8,367,460); tractor fuel, 17,108 (28,096); aviation turbine fuel, 289,364 (225,100); kerosene and stove oil (No. 1 fuel oil), 872,294 (391,977); diesel fuel, 1,813,401 (1,634,465); light fuel oil (Nos. 2 and 3), 1,182,280 (83,764); and heavy fuel oil (Nos. 4, 5 and 6), 4,657,653 (3,519,613).

**NOTE:** 1. It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in the month figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over. Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

2. The above procedure applied to the tabulations up to and including April, 1956; however, due to the lateness of the availability of the import data, this procedure has been discontinued starting with the current month and the import figures shown in Table 3 are unadjusted totals based on Table 4.

Vol. 11, No. 9

## REFINED PETROLEUM PRODUCTS

SEPTEMBER - 1956

Output of refined petroleum products in Canada during September, 1956, totalled 21,681,330 barrels compared with 17,231,493 barrels in September, 1955. The total for the month under review included 7,492,329 barrels of motor gasoline, 70,572 barrels of aviation gasoline, 4,369,498 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,733,828 barrels of diesel fuel, 3,449,286 barrels of light fuel oil, 1,235,945 barrels of kerosene and stove oil (No. 1 fuel oil), 75,929 barrels of tractor fuel, 487,568 barrels of aviation turbine fuel, 2,766,375 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 21,228,185 barrels of crude oil during September, 1956, compared with 16,865,966 barrels in September, 1955. Receipts of crude oil during the current month totalled 20,907,901 barrels, including 10,013,544 barrels of imported oil and 10,894,357 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 21,836,294 barrels compared with 19,144,202 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in September, 1956, comparable figures for corresponding month of 1955 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 100,992 (107,434); aviation gasoline, 376,621 (337,020); motor gasoline, 7,819,543 (7,717,958); tractor fuel, 10,992 (17,726); aviation turbine fuel, 252,281 (233,283); kerosene and stove oil (No. 1 fuel oil), 1,240,360 (844,302); diesel fuel, 1,887,382 (1,500,906); light fuel oil (Nos. 2 and 3), 2,145,095 (2,076,062) and heavy fuel oil (Nos. 4, 5 and 6), 3,949,086 (4,028,452).

**NOTE:** 1. It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in the month's figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over; Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

2. The above procedure applied to the tabulations up to and including April, 1956; however, due to the lateness of the availability of the import data, this Procedure has been discontinued starting with the current month and the import figures shown in Table 3 are unadjusted totals based on Table 4.
3. The External Trade Section makes no distinction in some cases between imports of finished lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the Net Sales figures for lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication it has been necessary to reduce imports shown in Table 3 for lube oils and greases. The latter situation becomes effective with the present report and accounts for the difference shown for lube oils and greases under Imports in Tables 3 and 4.

REFINED PETROLEUM PRODUCTS

SEPTEMBER, 1956

SPECIAL SUPPLEMENT

Commencing in January, 1955 a new concept was introduced involving the treatment of statistical data relating to the Monthly Refined Petroleum Products Survey. Apparently, however, accounting procedures maintained by the reporting companies could not be immediately adjusted to accommodate the new concept and as a result a number of irregularities were introduced. These were reflected in the published reports starting with the January, 1955 issue. The following tables attempt to correct the figures already published and the revisions indicated are based on information subsequently furnished by the reporting companies. The revisions carried relate mainly to Table 3 of the Monthly Refined Petroleum Products bulletin for the months January-August, 1956 as well as to data in the annual bulletin, Refined Petroleum Products, 1955.

This release is the only one issued to date relating entirely to the matter of revisions for the Monthly Refined Petroleum Products Survey. Future issues of a similar nature are not contemplated and, indeed, will scarcely be necessary in view of the exceptional circumstances occasioning the present release.

Vol. 11, No. 10

## REFINED PETROLEUM PRODUCTS

October, 1956

Output of refined petroleum products in Canada during October, 1956, totalled 21,645,735 barrels compared with 16,292,787 barrels in October, 1955. The total for the month under review included 7,787,262 barrels of motor gasoline, 44,249 barrels of aviation gasoline, 4,422,076 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,307,646 barrels of diesel fuel, 3,008,416 barrels of light fuel oil, 1,264,488 barrels of kerosene and stove oil (No. 1 fuel oil), 33,894 barrels of tractor fuel, 313,739 barrels of aviation turbine fuel, 2,463,965 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 21,382,501 barrels of crude oil during October, 1956, compared with 15,951,299 barrels in October, 1955. Receipts of crude oil during the current month totalled 22,171,601 barrels, including 11,088,400 barrels of imported oil and 11,083,201 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,811,372 barrels compared with 21,219,653 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in October, 1956, comparable figures for corresponding month of 1955 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 113,359 (114,399); aviation gasoline, 319,283 (256,803); motor gasoline, 8,360,748 (6,668,882); tractor fuel, 11,276 (12,749); aviation turbine fuel, 298,554 (233,878); kerosene and stove oil (No. 1 fuel oil), 1,350,320 (1,378,152); diesel fuel, 1,819,591 (1,557,750); light fuel oil (Nos. 2 and 3), 3,285,113 (2,697,249); and heavy fuel oil (Nos. 4, 5 and 6), 4,722,078 (3,814,245).

NOTE; 1. It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in the monthly figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over. Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

2. The above procedure applied to the tabulation up to and including April, 1956; since then, however, due to the lateness of the availability of the import data, this procedure has been discontinued and the import figures shown in Table 3 are unadjusted totals based on Table 4.

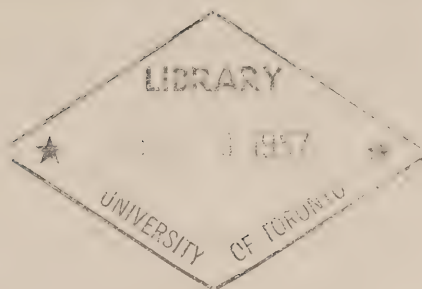

3. The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

## REFINED PETROLEUM PRODUCTS

November, 1956

Output of refined petroleum products in Canada during November, 1956, totalled 19,734,482 barrels compared with 16,781,186 barrels in November, 1955. The total for the month under review included 7,369,838 barrels of motor gasoline, 85,832 barrels of aviation gasoline, 4,222,689 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,261,941 barrels of diesel fuel, 2,937,770 barrels of light fuel oil, 904,366 barrels of kerosene and stove oil (No. 1 fuel oil), 35,261 barrels of tractor fuel, 296,217 barrels of aviation turbine fuel, 1,620,568 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 19,489,242 barrels of crude oil during November, 1956, compared with 16,509,695 barrels in November, 1955. Receipts of crude oil during the current month totalled 19,506,346 barrels, including 8,914,370 barrels of imported oil and 10,591,976 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,957,263 barrels compared with 21,623,262 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in November, 1956, comparable figures for corresponding month of 1955 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 109,443 (104,248); aviation gasoline, 305,146 (217,432); motor gasoline, 6,718,551 (5,963,845); tractor fuel, 2,238 (4,910); aviation turbine fuel, 263,675 (180,993); kerosene and stove oil (No. 1 fuel oil), 1,890,843 (2,059,306); diesel fuel, 1,797,688 (1,566,123); light fuel oil (Nos. 2 and 3), 5,206,484 (5,083,150); and heavy fuel oil (Nos. 4, 5 and 6), 4,841,938 (4,509,794).

- NOTE 1. It is the practice of the External Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in the month's figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over; Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.
2. The above procedure applied to the tabulation up to and including April, 1956; since then, however, due to the lateness of the availability of the import data, this procedure has been discontinued and the import figures shown in Table 3 are unadjusted totals based on Table 4.
3. The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

## REFINED PETROLEUM PRODUCTS

December, 1956

Output of refined petroleum products in Canada during December, 1956 totalled 21,024,819 barrels compared with 18,530,464 barrels in December, 1955. The total for the month under review included 7,660,704 barrels of motor gasoline, 36,049 barrels of aviation gasoline, 4,683,824 barrels of heavy fuel oil (Nos. 4, 5 and 6), 3,766,848 barrels of diesel fuel, 3,768,034 barrels of light fuel oil, 1,150,737 barrels of kerosene and stove oil (No. 1 fuel oil), 66,387 barrels of tractor fuel, 1,92,763 barrels of aviation turbine fuel, 1,599,473 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 20,874,648 barrels of crude oil during December, 1956, compared with 18,227,159 barrels in December, 1955. Receipts of crude oil during the current month totalled 19,887,880 barrels, including 8,695,363 barrels of imported oil and 11,192,517 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 21,494,134 barrels compared with 20,237,417 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in December, 1956, comparable figures for corresponding month of 1955 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 88,234 (88,853); aviation gasoline 243,809 (222,365); motor gasoline, 6,154,102 (5,510,082); tractor fuel, 281 (792); aviation turbine fuel, 192,527 (170,089); kerosene and stove oil (No. 1 fuel oil), 2,520,669 (2,416,831); diesel fuel, 1,621,921 (1,295,179); light fuel oil (Nos. 2 and 3), 7,400,110 (7,027,223); and heavy fuel oil (Nos. 4, 5 and 6), 4,969,739 (4,824,271).

NOTE: 1. It is the practice of the external Trade Section to close off their records for a particular month with entries received at Ottawa on the last working day; accordingly, there may be some carry-over into the next month. That is to say, imports during the last few days of a month at customs' ports such as Halifax, Vancouver, Montreal, etc., do not reach Ottawa in time for inclusion in the month's figures but are carried over into the totals for the following month. Figures shown in Table 3 have been adjusted by examining the individual customs' invoices and by pulling back any such carry-over; Table 3, therefore, shows totals for the full month. For this reason the figures differ slightly from the figures shown in the above table.

2. The above procedure applied to the tabulation up to and including April, 1956; since then, however, due to the lateness of the availability of the import data, this procedure has been discontinued and the import figures shown in Table 3 are unadjusted totals based on Table 4.
3. The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.
4. The Ontario blending stock figures for lube oil and greases shown for the current month include adjustments for the full year as well as actual reported December figures.

## REFINED PETROLEUM PRODUCTS

January, 1957

Output of refined petroleum products in Canada during January, 1957, totalled 20,810,986 barrels compared with 19,004,764 barrels in January, 1956. The total for the month under review included 7,063,198 barrels of motor gasoline, 84,356 barrels of aviation gasoline, 4,413,556 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,561,684 barrels of diesel fuel, 3,941,749 barrels of light fuel oil, 1,226,109 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 396,738 barrels of aviation turbine fuel, 55,931 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 20,444,845 barrels of crude oil during January, 1957, compared with 18,665,679 barrels in January, 1956. Receipts of crude oil during the current month totalled 19,163,214 barrels, including 8,694,433 barrels of imported oil and 10,468,781 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,942,148 barrels compared with 20,209,327 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in January, 1957, comparable figures for corresponding month of 1956 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 95,053 (95,904); aviation gasoline, 423,703 (307,561); motor gasoline, 5,907,030 (5,061,166); aviation turbine fuel, 236,279 (247,416); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 2,673,630 (2,215,475); diesel fuel, 1,354,971 (1,152,750); light fuel oil (Nos. 2 and 3), 8,871,999 (6,891,369); and heavy fuel oil (Nos. 4, 5 and 6), 4,561,939 (3,709,106).

NOTE: The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

# REFINED PETROLEUM PRODUCTS

FEBRUARY, 1957

*Published by Authority of*  
The Right Honourable C. D. Howe, Minister of Trade and Commerce

DOMINION BUREAU OF STATISTICS  
Industry and Merchandising Division  
Metal and Chemical Products Section

Vol. 12, No. 2

## REFINED PETROLEUM PRODUCTS

February, 1957

Output of refined petroleum products in Canada during February, 1957, totalled 19,448,646 barrels compared with 17,720,499 barrels in February, 1956. The total for the month under review included 6,593,415 barrels of motor gasoline, 33,923 barrels of aviation gasoline, 4,080,056 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,643,936 barrels of diesel fuel, 3,468,788 barrels of light fuel oil, 1,228,731 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 365,505 barrels of aviation turbine fuel, 2,034,292 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 19,158,842 barrels of crude oil during February, 1957, compared with 17,339,694 barrels in February, 1956. Receipts of crude oil during the current month totalled 17,943,243 barrels, including 7,770,529 barrels of imported oil and 10,172,714 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 21,832,554 barrels compared with 20,001,799 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in February, 1957, comparable figures for corresponding month of 1956 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 94,966 (90,195); aviation gasoline, 255,930 (260,143); motor gasoline, 5,183,077 (4,835,763); aviation turbine fuel, 292,570 (251,784); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 1,840,745 (1,774,272); diesel fuel, 1,477,981 (1,189,503); light fuel oil (Nos. 2 and 3), 6,612,160 (5,971,570); and heavy fuel oil (Nos. 4, 5 and 6), 3,620,585 (3,542,397).

**NOTE:** The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3, for motor gasoline, lube oils and greases.

CANADA

# REFINED PETROLEUM PRODUCTS

MARCH, 1957

*Published by Authority of*

The Honourable Gordon Churchill, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

March, 1957

Output of refined petroleum products in Canada during March, 1957, totalled 19,720,326 barrels compared with 17,288,116 barrels in March 1956. The total for the month under review included 7,160,593 barrels of motor gasoline, 53,822 barrels of aviation gasoline, 3,975,554 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,189,852 barrels of diesel fuel, 3,179,252 barrels of light fuel oil, 1,176,900 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 482,141 barrels of aviation turbine fuel, 1,502,212 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 19,482,213 barrels of crude oil during March 1957, compared with 16,783,062 barrels in March 1956. Receipts of crude oil during the current month totalled 19,603,877 barrels, including 8,774,186 barrels of imported oil and 10,829,691 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 21,641,679 barrels compared with 20,030,399 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in March, 1957 comparable figures for corresponding month of 1956 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 97,679 (95,073); aviation gasoline, 249,125 (280,237); motor gasoline, 5,845,786 (5,399,724); aviation turbine fuel, 304,820 (237,308); tractor fuel, kerosene and stove oil (No.1 fuel oil) 1,560,088 (1,834,571); diesel fuel, 1,651,785 (1,447,692); Light fuel oil (Nos. 2 and 3), 5,520,246 (5,797,869); and heavy fuel oil (Nos. 4, 5 and 6), 3,540,030 (3,567,933).

NOTE: The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

# REFINED PETROLEUM PRODUCTS

APRIL, 1957

*Published by Authority of*

The Honourable Gordon Churchill, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

April, 1957

Output of refined petroleum products in Canada during April, 1957, totalled 17,463,405 barrels compared with 16,716,510 barrels in April, 1956. The total for the month under review included 6,214,902 barrels of motor gasoline, 35,806 barrels of aviation gasoline, 3,704,655 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,906,282 barrels of diesel fuel, 2,584,090 barrels of light fuel oil, 1,068,034 barrels of kerosene and stove oil (No. 1 fuel oil) and tractor fuel, 420,742 barrels of aviation turbine fuel, 1,528,894 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 17,287,898 barrels of crude oil during April, 1957, compared with 16,380,949 barrels in April, 1956. Receipts of crude oil during the current month totalled 18,111,285 barrels, including 8,357,502 barrels of imported oil and 9,753,783 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,485,581 barrels compared with 19,922,652 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in April, 1957, comparable figures for corresponding month of 1956 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 113,096 (106,961); aviation gasoline, 296,536 (302,554); motor gasoline, 6,264,052 (5,482,714); aviation turbine fuel, 254,287 (281,649); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 1,102,034 (973,174); diesel fuel, 1,311,298 (1,214,018); light fuel oil (Nos. 2 and 3), 4,000,920 (3,715,610); and heavy fuel oil (Nos. 4, 5, and 6), 3,720,786 (3,447,651).

**NOTE:** The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

# REFINED PETROLEUM PRODUCTS

**MAY, 1957**

*Published by Authority of*

The Honourable Gordon Churchill, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

May, 1957

Output of refined petroleum products in Canada during May, 1957

totalled 20,543,133 barrels compared with 17,156,975 barrels in May, 1956. The total for the month under review included 6,710,446 barrels of motor gasoline, 55,778 barrels of aviation gasoline, 4,101,343 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,692,249 barrels of diesel fuel, 2,457,222 barrels of light fuel oil, 1,149,026 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 451,102 barrels of aviation turbine fuel, 2,925,967 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 20,336,537 barrels of crude oil during May, 1957, compared with 16,945,732 barrels in May, 1956. Receipts of crude oil during the current month totalled 21,159,422 barrels, including 10,079,842 barrels of imported oil and 11,079,580 barrels from Canadian sources of supply. Inventories of crude oil at the end of the month amounted to 22,225,607 barrels compared with 20,554,907 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in May 1957, comparable figures for corresponding month of 1956 in brackets, all figures being in thousands of barrels of 35 Imperial gallons; Naphtha specialties, 143,347 (118,491), aviation gasoline 311,935 (354,895); motor gasoline, 8,765,703 (8,006,178); aviation turbine fuel, 362,616 (305,901); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 369,907 (790,222); diesel fuel, 1,889,178 (1,569,964); light fuel oil (Nos. 2 and 3), 1,944,200 (2,643,878), and heavy fuel oil (Nos. 4, 5 and 6), 4,320,650 (4,840,906).

NOTE: The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

CANADA

# REFINED PETROLEUM PRODUCTS

JUNE, 1957

*Published by Authority of*

The Honourable Gordon Churchill, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

June, 1957

Output of refined petroleum products in Canada during June, 1957 totalled 21,630,448 barrels compared with 19,010,395 barrels in June, 1956. The total for the month under review included 7,370,372 barrels of motor gasoline, 55,483 barrels of aviation gasoline, 3,831,383 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,471,412 barrels of diesel fuel, 3,245,383 barrels of light fuel oil, 995,709 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 372,673 barrels of aviation turbine fuel, 3,288,033 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 21,459,202 barrels of crude oil during June, 1957, compared with 18,801,855 barrels in June, 1956. Receipts of crude oil during the current month totalled 22,177,205 barrels, including 10,985,944 barrels of imported oil and 11,191,261 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 23,132,479 barrels compared with 21,842,961 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in June, 1957, comparable figures for corresponding month of 1956 in brackets, all figures being in barrels of 35 Imperial gallons; Naphtha specialties, 108,519 (141,750); aviation gasoline 323,006 (382,455); motor gasoline, 7,975,681 (7,966,025); aviation turbine fuel, 292,632 (277,889); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 404,406 (358,981); diesel fuel, 1,708,788 (1,665,895); light fuel oil (Nos. 2 and 3), 1,176,238 (1,349,199), and heavy fuel oil (Nos. 4, 5 and 6), 3,864,591 (3,909,293).

**NOTE:** The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

## REFINED PETROLEUM PRODUCTS

July, 1957

Output of refined petroleum products in Canada during July, 1957 totalled 22,612,036 barrels compared with 21,478,996 barrels in July, 1956. The total for the month under review included 8,274,253 barrels of motor gasoline, 89,015 barrels of aviation gasoline, 4,077,076 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,818,173 barrels of diesel fuel, 3,352,755 barrels of light fuel oil, 791,311 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 338,534 barrels of aviation turbine fuel, 2,870,919 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 22,426,659 barrels of crude oil during July, 1957, compared with 21,247,715 barrels in July, 1956. Receipts of crude oil during the current month totalled 22,584,892 barrels, including 9,908,670 barrels of imported oil and 12,676,222 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,797,498 barrels compared with 21,088,717 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in July, 1957, comparable figures for corresponding month of 1956 in brackets, all figures being in barrels of 35 Imperial gallons; Naphtha specialties, 125,387 (105,755); aviation gasoline 365,686 (397,123); motor gasoline, 9,710,466 (8,417,942); aviation turbine fuel, 328,126 (264,516); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 544,675 (342,378); diesel fuel, 2,044,421 (1,758,644); light fuel oil (Nos. 2 and 3), 1,635,173 (888,004), and heavy fuel oil (Nos. 4, 5 and 6), 4,035,439 (4,391,419).

NOTE: The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

## REFINED PETROLEUM PRODUCTS

August, 1957

Output of refined petroleum products in Canada during August, 1957 totalled 21,735,527 barrels compared with 21,903,145 barrels in August, 1956. The total for the month under review included 8,042,932 barrels of motor gasoline, 61,480 barrels of aviation gasoline, 3,854,611 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,197,104 barrels of diesel fuel, 3,290,815 barrels of light fuel oil, 1,030,818 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 482,298 barrels of aviation turbine fuel, 2,775,469 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 21,578,849 barrels of crude oil during August, 1957, compared with 21,551,150 barrels in August, 1956. Receipts of crude oil during the current month totalled 21,876,814 barrels, including 10,302,413 barrels of imported oil and 11,574,401 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,517,161 barrels compared with 22,190,232 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in August, 1957, comparable figures for corresponding month of 1956 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 119,494 (105,473), aviation gasoline 374,974 (376,671); motor gasoline, 9,295,995 (8,799,547); aviation turbine fuel, 278,099 (289,364); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 593,068 (889,402); diesel fuel, 1,953,228 (1,813,401); light fuel oil (Nos. 2 and 3), 1,127,705 (1,182,280), and heavy fuel oil (Nos. 4, 5 and 6, 3,923,373 (4,657,653).

NOTE: The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

# REFINED PETROLEUM PRODUCTS

SEPTEMBER, 1957

*Published by Authority of*

The Honourable Gordon Churchill, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

September, 1957

Output of refined petroleum products in Canada during September, 1957 totalled 19,166,916 barrels compared with 21,681,330 barrels in September, 1956. The total for the month under review included 7,727,992 barrels of motor gasoline, 76,800 barrels of aviation gasoline, 3,438,540 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,730,748 barrels of diesel fuel, 3,068,020 barrels of light fuel oil, 867,838 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 336,087 barrels of aviation turbine fuel, 9,648,883 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 18,980,866 barrels of crude oil during September, 1957, compared with 21,228,185 barrels in September, 1956. Receipts of crude oil during the current month totalled 19,022,433 barrels, including 8,845,525 barrels of imported oil and 10,176,908 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 23,202,595 barrels compared with 21,836,294 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in September 1957, comparable figures for corresponding month of 1956 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 121,265 (100,992), aviation gasoline 289,917 (376,621); motor gasoline, 8,034,088 (7,819,543); aviation turbine fuel, 299,338 (252,281); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 758,441 (1,251,352); diesel fuel, 1,869,399 (1,887,382); light fuel oil (Nos. 2 and 3), 2,018,620 (2,145,095), and heavy fuel oil (Nos. 4, 5 and 6), 3,800,192 (3,949,086).

NOTE: The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

# REFINED PETROLEUM PRODUCTS

OCTOBER, 1957

*Published by Authority of*

The Honourable Gordon Churchill, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

October, 1957

Output of refined petroleum products in Canada during October, 1957 totalled 19,761,678 barrels compared with 21,645,735 barrels in October, 1956. The total for the month under review included 7,725,111 barrels of motor gasoline, 16,706 barrels of aviation gasoline, 3,612,665 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,049,823 barrels of diesel fuel, 2,821,994 barrels of light fuel oil, 1,017,542 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 314,658 barrels of aviation turbine fuel, 2,203,179 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 19,583,640 barrels of crude oil during October, 1957, compared with 21,382,501 barrels in October, 1956. Receipts of crude oil during the current month totalled 19,313,447 barrels, including 10,102,713 barrels of imported oil and 9,210,734 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 24,035,418 barrels compared with 22,811,372 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in October, 1957, comparable figures for corresponding month of 1956 in brackets, all figures being in barrels of 35 Imperial gallons; Naphtha specialties, 121,343 (113,359), aviation gasoline 296,523 (319,283); motor gasoline, 7,877,532 (8,360,748); aviation turbine fuel, 289,438 (298,554); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 1,412,625 (1,361,596); diesel fuel, 2,077,021 (1,819,591); light fuel oil (Nos. 2 and 3), 3,239,274 (3,285,113), and heavy fuel oil (Nos. 4, 5 and 6), 4,433,528 (4,722,078).

NOTE: The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

CANADA

# REFINED PETROLEUM PRODUCTS

NOVEMBER, 1957

*Published by Authority of*

The Honourable Gordon Churchill, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

November, 1957

Output of refined petroleum products in Canada during November, 1957 totalled 18,519,587 barrels compared with 19,734,482 barrels in November, 1956. The total for the month under review included 7,415,041 barrels of motor gasoline, 52,689 barrels of aviation gasoline, 3,450,561 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,196,967 barrels of diesel fuel, 2,369,640 barrels of light fuel oil, 1,214,865 barrels of kerosene, stove oil (No. 1 fuel oil), and tractor fuel, 332,066 barrels of aviation turbine fuel, 1,487,758 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 18,361,153 barrels of crude oil during November, 1957, compared with 19,489,242 barrels in November, 1956. Receipts of crude oil during the current month totalled 18,545,367 barrels, including 9,144,121 barrels of imported oil and 9,401,246 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 23,792,031 barrels compared with 22,957,263 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in November, 1957, comparable figures for corresponding month of 1956 in brackets, all figures being in barrels of 35 Imperial gallons; Naphtha specialties, 113,550 (109,443); aviation gasoline 230,828 (305,146); motor gasoline, 6,803,741 (6,717,147); aviation turbine fuel, 266,165 (263,675); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 1,549,386 (1,812,081); diesel fuel, 1,776,034 (1,797,688); light fuel oil (Nos. 2 and 3), 5,541,854 (5,206,484), and heavy fuel oil (Nos. 4, 5 and 6), 4,771,009 (4,841,938).

**NOTE:** The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

CANADA

# REFINED PETROLEUM PRODUCTS

## DECEMBER, 1957

*Published by Authority of*  
The Honourable Gordon Churchill, Minister of Trade and Commerce

DOMINION BUREAU OF STATISTICS  
Industry and Merchandising Division  
Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

December, 1957

Output of refined petroleum products in Canada during December, 1957 totalled 19,652,642 barrels compared with 21,024,819 barrels in December, 1956. The total for the month under review included 7,405,696 barrels of motor gasoline, 56,854 barrels of aviation gasoline, 3,871,574 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,454,360 barrels of diesel fuel, 3,432,905 barrels of light fuel oil, 1,078,565 barrels of kerosene, stove oil (No. 1 fuel oil), and tractor fuel, 414,546 barrels of aviation turbine fuel, 1,938,142 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 19,485,072 barrels of crude oil during December, 1957, compared with 20,874,648 barrels in December, 1956. Receipts of crude oil during the current month totalled 19,119,709 barrels, including 8,740,793 barrels of imported oil and 10,378,916 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,566,035 barrels compared with 21,494,134 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in December 1957, comparable figures for corresponding month of 1956 in brackets, all figures being in barrels of 35 Imperial gallons: Naphtha specialties, 114,206 (88,234), aviation gasoline 261,651 (243,809); motor gasoline, 6,352,747 (6,154,102); aviation turbine fuel, 245,568 (192,527); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 1,968,810 (2,520,950); diesel fuel, 1,608,084 (1,621,921); light fuel oil (Nos. 2 and 3), 7,199,473 (7,400,110), and heavy fuel oil (Nos. 4, 5 and 6), 4,160,021 (4,969,739).

NOTE: The External Trade Section makes no distinction in some cases between imports of finished motor gasoline, lube oils and greases and certain kinds of blending stocks. This has resulted in some duplication in the "Net Sales" figures for motor gasoline, lube oils and greases as the amount of blending stock in some cases has been also reported by companies as imports under "Blending stocks used". In order to allow for this duplication, it has been necessary to reduce imports shown in Table 3 for motor gasoline, lube oils and greases.

CANADA

# REFINED PETROLEUM PRODUCTS

JANUARY, 1958

*Published by Authority of*  
The Honourable Gordon Churchill, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

January, 1958

Output of refined petroleum products in Canada during January, 1958 totalled 20,921,150 barrels compared with 20,810,986 barrels in January, 1957. The total for the month under review included 7,640,545 barrels of motor gasoline, 32,796 barrels of aviation gasoline, 3,869,309 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,497,907 barrels of diesel fuel, 3,653,120 barrels of light fuel oil, 1,509,122 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 328,292 barrels of aviation turbine fuel, 2,390,059 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 20,739,502 barrels of crude oil during January, 1958, compared with 20,444,845 barrels in January, 1957. Receipts of crude oil during the current month totalled 20,554,050 barrels, including 8,221,773 barrels of imported oil and 12,332,277 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 21,769,303 barrels compared with 22,942,148 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in January, 1958, comparable figures for corresponding month of 1957 in brackets, all figures being in barrels of 35 Imperial gallons; Naphtha specialties, 99,779 (93,265), aviation gasoline 217,857 (235,316); motor gasoline, 5,938,297 (5,907,866); aviation turbine fuel, 289,495 (236,279); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 2,073,830 (2,579,374); diesel fuel, 1,336,108 (1,354,971); light fuel oil (Nos. 2 and 3), 8,015,070 (8,871,999), and heavy fuel oil (Nos. 4, 5 and 6), 3,216,768 (4,561,939).

### Explanatory Notes

Effective, January, 1958 the reports in this series will reflect a major change in concept involving the treatment of import data. It is hoped that the introduction of this new concept will in time result in an improvement in timeliness amounting to perhaps six to eight weeks. This new concept as well as other changes are reviewed in the following:

1. In normal practice it is possible for respondents to file reports to this survey within and usually not later than about six weeks; however, it is not possible to develop a comprehensive total for imports and net sales of products from the data supplied by respondents alone as it is necessary to adjust for additional imports of products accounted for by non-reporting firms such as large industrial consumers and certain distributors which are not covered in this survey. This adjustment is accomplished through the use of import data supplied by the External Trade Section. The delay in receiving import data has in the past been responsible for holding up publication of this report for about two months over and above the time required by the respondents to file their reports. The new concept introduces a change in the method of handling import data under which the import figures supplied by respondents will be the basis of initial data with any necessary correction for full import data being made with respect to the month in which the amount of correction becomes known, rather than the month to which it applies. In effect, this means that the January figures in respect to imports and net sales as presented in this report are understated by the amount of adjustment which in the past would have normally been made through the use of full import data for January. As the latter become available they will be processed as in the past and net adjustments resulting therefrom will be incorporated into the report for a following month. In the present instance this means that the January adjustments will be included in either the February or March report. In any event, the report for each month will carry a statement indicating the month for which changes relate. Details of full imports will be carried as usual in the appropriate table of the report but because this is the first report incorporating the new concept full import data for January are not available.

2. Opening inventory data carried in the report for January do not agree with closing inventory data shown in the December, 1957 report as during 1957 it was necessary to affect certain changes arising from the adjustments made for full imports. Any differences resulting from these adjustments were usually carried in inventory. Opening inventory figures for January, 1958 are actual volumes reported by respondents without adjustment.

# REFINED PETROLEUM PRODUCTS

FEBRUARY, 1958

*Published by Authority of*  
The Honourable Gordon Churchill, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

February, 1958

Output of refined petroleum products in Canada during February, 1958 totalled 19,055,206 barrels compared with 19,448,646 barrels in January, 1957. The total for the month under review included 6,590,591 barrels of motor gasoline, 42,902 barrels of aviation gasoline, 3,514,330 barrels of heavy fuel oil (Nos. 4, 5 and 6), 980,347 barrels of diesel fuel, 3,728,973 barrels of light fuel, 1,296,362 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 289,156 barrels of aviation turbine fuel, 2,612,545 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 18,902,854 barrels of crude oil during February, 1958, compared with 19,158,842 barrels in February, 1957. Receipts of crude oil during the current month totalled 19,386,749 barrels, including 8,575,641 barrels of imported oil and 10,811,108 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,633,908 barrels compared with 21,832,554 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in January, 1958, comparable figures for corresponding month of 1957 in brackets, all figures being in barrels of 35 Imperial gallons; naphtha specialties, 104,514 (92,983); aviation gasoline 293,570 (255,930); motor gasoline 5,584,519 (5,183,077); aviation turbine fuel 279,561 (292,570); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 2,190,537 (1,840,745); diesel fuel, 1,346,689 (1,477,981); light fuel oil (Nos. 2 and 3) 7,787,201 (6,612,160); and heavy fuel oil (Nos. 4, 5 and 6), 3,481,760 (3,620,585).

### Explanatory Notes

- Note:
1. Effective January, 1958 the reports in this series reflect a major change in concept involving the treatment of import data - see "Explanatory Notes" in January, 1958 report for details.
  2. Import totals shown in Table 3 were developed from actual data supplied by respondents in February with an adjustment involving January data supplied by the External Trade Section.

# REFINED PETROLEUM PRODUCTS

March, 1958

Output of refined petroleum products in Canada during March, 1958 totalled 19,950,090 barrels compared with 19,720,326 barrels in March, 1957. The total for the month under review included 6,496,670 barrels of motor gasoline, 61,593 barrels of aviation gasoline, 3,369,510 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,164,761 barrels of diesel fuel, 2,847,654 barrels of light fuel, 1,073,418 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 392,235 barrels of aviation turbine fuel, 544,249 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 18,818,583 barrels of crude oil during March, 1958, compared with 19,482,213 barrels in March, 1957. Receipts of crude oil during the current month totalled 18,155,885 barrels, including 7,354,452 barrels of imported oil and 10,801,433 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,314,116 barrels compared with 21,641,679 barrels on the corresponding date of last year. These figures include stocks held at the field, pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in March, 1958, comparable figures for corresponding month of 1957 in brackets, all figures being in barrels of 35 Imperial gallons; naphtha specialties, 120,024 (97,679); aviation gasoline, 225,926 (249,125); motor gasoline, 6,098,339 (5,845,786); aviation turbine fuel, 293,611 (304,820); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 469,888 (1,560,088); diesel fuel, 1,508,406 (1,651,785); light fuel oil (Nos. 2 and 3), 5,632,057 (5,520,246); and heavy fuel oil (Nos. 4, 5 and 6), 3,075,040 (3,560,514).

## Explanatory Notes

- Note: 1. Effective January, 1958 the reports in this series reflect a major change in concept involving the treatment of import data - see "Explanatory Notes" in January, 1958 report for details.
2. Import totals shown in Table 3 were developed from actual data supplied by respondents in March with an adjustment involving February data supplied by the External Trade Section.

# REFINED PETROLEUM PRODUCTS

APRIL, 1958

*Published by Authority of*  
The Honourable Gordon Churchill, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**  
Industry and Merchandising Division  
Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

April, 1958

Output of refined petroleum products in Canada during April, 1958 totalled 16,404,137 barrels compared with 17,463,405 barrels in April, 1957. The total for the month under review included 6,016,408 barrels of motor gasoline, 72,415 barrels of aviation gasoline, 2,748,422 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,754,984 barrels of diesel fuel, 2,243,852 barrels of light fuel, 800,866 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 296,199 barrels of aviation turbo fuel, 2,470,991 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 16,298,346 barrels of crude oil during April, 1958, compared with 17,287,898 barrels in April, 1957. Receipts of crude oil during the current month totalled 16,842,356 barrels, including 7,195,333 barrels of imported oil and 9,647,023 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,889,672 barrels compared with 22,485,581 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in April, 1958, comparable figures for corresponding month of 1957 in brackets, all figures being in barrels of 35 Imperial gallons; naphtha specialties, 123,358 (113,096); aviation gasoline, 256,525 (296,536); motor gasoline, 7,068,170 (6,264,052); aviation turbo fuel, 338,042 (254,287); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 856,802 (1,102,034); diesel fuel, 1,450,092 (1,311,298); light fuel oil (Nos. 2 and 3), 3,581,259 (4,000,920); and heavy fuel oil (Nos. 4, 5 and 6), 3,125,774 (3,734,396).

### Explanatory Notes

- Note:
1. Effective January, 1958 the reports in this series reflect a major change in concept involving the treatment of import data - see "Explanatory Notes" in January, 1958 report for details.
  2. Import totals shown in Table 3 were developed from actual data supplied by respondents in April with an adjustment involving March data supplied by the External Trade Section.

# REFINED PETROLEUM PRODUCTS

May, 1958

Output of refined petroleum products in Canada during May, 1958 totalled 18,730,051 barrels compared with 20,543,133 barrels in May, 1957. The total for the month under review included 6,609,583 barrels of motor gasoline, 46,350 barrels of aviation gasoline, 3,263,819 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,180,140 barrels of diesel fuel, 2,706,224 barrels of light fuel, 696,180 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 386,028 barrels of aviation turbo fuel, 2,841,727 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 18,593,221 barrels of crude oil during May, 1958, compared with 20,336,537 barrels in May, 1957. Receipts of crude oil during the current month totalled 19,072,580 barrels, including 9,250,727 barrels of imported oil and 9,821,853 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 23,091,665 barrels compared with 22,225,607 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in May, 1958, comparable figures for corresponding month of 1957 in brackets, all figures being in barrels of 35 Imperial gallons; naphtha specialties, 145,777 (143,347); aviation gasoline 337,624 (311,935), motor gasoline, 8,881,521 (8,765,703); aviation turbo fuel, 361,279 (362,616); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 721,118 (524,628); diesel fuel, 1,968,159 (1,889,178); light fuel oil (Nos. 2 and 3), 2,285,977 (1,944,200; and heavy fuel oil (Nos. 4, 5 and 6), 3,419,194 (4,300,818).

# REFINED PETROLEUM PRODUCTS

JUNE, 1958

*Published by Authority of*

The Honourable Gordon Churchill, Minister of Trade and Commerce

**DOMINION BUREAU OF STATISTICS**

Industry and Merchandising Division

Metal and Chemical Products Section

## REFINED PETROLEUM PRODUCTS

June, 1958

Output of refined petroleum products in Canada during June, 1958 totalled 19,946,185 barrels compared with 21,630,448 barrels in June, 1957. The total for the month under review included 6,848,247 barrels of motor gasoline, 40,866 barrels of aviation gasoline, 3,205,065 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,241,519 barrels of diesel fuel, 2,871,497 barrels of light fuel, 809,345 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 432,379 barrels of aviation turbo fuel, 3,497,267 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 19,819,718 barrels of crude oil during June, 1958, compared with 21,459,202 barrels in June, 1957. Receipts of crude oil during the current month totalled 19,804,246 barrels, including 9,598,778 barrels of imported oil and 10,205,468 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,617,590 barrels compared with 23,132,479 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in June, 1958, comparable figures for corresponding month of 1957 in brackets, all figures being in barrels of 35 Imperial gallons; naphtha specialties, 121,963 (108,519); aviation gasoline, 315,178 (323,006); motor gasoline, 8,255,891 (7,975,681); aviation turbo fuel, 380,703 (292,632); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 397,143 (320,204); diesel fuel, 1,981,375 (1,708,788); light fuel oil (Nos. 2 and 3), 1,560,268 (1,176,238); and heavy fuel oil (Nos. 4, 5 and 6), 2,899,692 (3,831-282).

## SPECIAL NOTICE

The January, 1958 report in this series carried an explanatory note outlining a change in concept involving the use of import data supplied by the External Trade Section of the Dominion Bureau of Statistics. At that time it was indicated that because of the unavailability of comprehensive import data it was decided an adjustment for full import data would have to be made with respect to the month in which the amount of correction became known, rather than the month to which it applies. In consequence, the January report in respect to imports and net sales showed totals which were understated by the amount of adjustment which in the past would have normally been made through the use of full import data for January. The adjustment applying to January imports was introduced into the tabulations presented in the February report and this schedule was maintained for the reports covering the first five months of 1958; however, it was found possible to affect certain improvements in data processing procedures in this period so it now appears that adherence to this schedule would delay preparation and, therefore, final release of the report. An extension of the original concept, that is, dropping back another month in the import adjustments would overcome this situation and it has been decided to introduce this feature for the month under review. Accordingly, import data shown in the June bulletin reflect only basic data supplied by respondents. The adjustments involving import data for May supplied by the External Trade Section will not be introduced until the July report. As in the past, of course, the report for each month will carry a statement indicating the month to which changes relate. Details of full imports will appear as usual in the appropriate table of the report, but because of the circumstances outlined above the May imports which would normally have been found in the June release will not be carried until July.

## REFINED PETROLEUM PRODUCTS

July, 1958

Output of refined petroleum products in Canada during July, 1958 totalled 21,859,375 barrels compared with 22,612,036 barrels in July, 1957. The total for the month under review included 8,067,983 barrels of motor gasoline, 70,621 barrels of aviation gasoline, 3,232,242 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,936,497 barrels of diesel fuel, 3,481,331 barrels of light fuel, 571,397 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 334,161 barrels of aviation turbo fuel, 3,165,143 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 21,728,406 barrels of crude oil during July, 1958, compared with 22,426,659 barrels in July, 1957. Receipts of crude oil during the current month totalled 21,874,993 barrels, including 9,574,741 barrels of imported oil and 12,300,252 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 23,626,857 barrels compared with 22,797,498 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in July, 1958, comparable figures for corresponding month of 1957 in brackets, all figures being in barrels of 35 Imperial gallons; naphtha specialties, 122,094 (125,387); aviation gasoline, 393,326 (365,686); motor gasoline, 9,545,700 (9,418,360); aviation turbo fuel, 376,478 (328,126); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 434,144 (491,607); diesel fuel, 2,041,698 (2,044,421); light fuel oil (Nos. 2 and 3), 1,054,384 (1,635,173); and heavy fuel oil (Nos. 4, 5 and 6), 3,791,006 (4,036,985).

## SPECIAL NOTICE

The January, 1958 report in this series carried an explanatory note outlining a change in concept involving the use of import data supplied by the External Trade Section of the Dominion Bureau of Statistics. At that time it was indicated that because of the unavailability of comprehensive import data it was decided an adjustment for full import data would have to be made with respect to the month in which the amount of correction became known, rather than the month to which it applies. In consequence, the January report in respect to imports and net sales showed totals which were understated by the amount of adjustment which in the past would have normally been made through the use of full import data for January. The adjustment applying to January imports was introduced into the tabulations presented in the February report and this schedule was maintained for the reports covering the first five months of 1958; however, it was found possible to affect certain improvements in data processing procedures in this period so it now appears that adherence to this schedule would delay preparation and, therefore, final release of the report. An extension of the original concept, that is, dropping back another month in the import adjustments would overcome this situation and it was decided to introduce this feature for the month of June. Accordingly, import data shown in the June bulletin reflected only basic data supplied by respondents. The adjustments involving import data for May supplied by the External Trade Section are being introduced in the July report.

## REFINED PETROLEUM PRODUCTS

August, 1958

Output of refined petroleum products in Canada during August, 1958 totalled 21,708,498 barrels compared with 21,735,527 barrels in August, 1957. The total for the month under review included 7,692,698 barrels of motor gasoline, 75,903 barrels of aviation gasoline, 3,504,372 barrels of heavy fuel oil (Nos. 4, 5 and 6), 2,144,755 barrels of diesel fuel, 3,630,642 barrels of light fuel, 877,724 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 376,211 barrels of aviation turbo fuel, 3,406,193 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 21,582,027 barrels of crude oil during August, 1958, compared with 21,578,849 barrels in August, 1957. Receipts of crude oil during the current month totalled 21,551,043 barrels, including 9,753,453 barrels of imported oil and 11,797,590 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 23,140,775 barrels compared with 22,517,161 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in August, 1958, comparable figures for corresponding month of 1957 in brackets, all figures being in barrels of 35 Imperial gallons; naphtha specialties, 113,801 (119,494); aviation gasoline, 394,486 (374,974; motor gasoline, 9,399,060 (9,295,995); aviation turbo fuel, 357,365 (278,099); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 486,271 (546,385); diesel fuel, 2,095,236 (1,953,228); light fuel oil (Nos. 2 and 3), 876,887 (1,127,705); and heavy fuel oil (Nos. 4, 5 and 6), 3,453,482 (3,835,863).

### Explanatory Notes

- Note:
1. Effective January and June 1958 the reports in this series reflect a major change in concept involving the treatment of import data - see "Explanatory Notes" in January and June 1958 reports for details.
  2. Import totals shown in Table 3 were developed from actual data supplied by respondents in August with an adjustment involving June data supplied by the External Trade Section.

## REFINED PETROLEUM PRODUCTS

September, 1958

Output of refined petroleum products in Canada during September, 1958 totalled 20,348,967 barrels compared with 19,166,916 barrels in September, 1957. The total for the month under review included 7,523,424 barrels of motor gasoline, 41,700 barrels of aviation gasoline, 3,291,639 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,651,423 barrels of diesel fuel, 3,261,126 barrels of light fuel, 1,023,478 barrels of kerosens, stove oil (No. 1 fuel oil) and tractor fuel, 408,056 barrels of aviation turbo fuel, 3,148,121 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 20,204,648 barrels of crude oil during September, 1958, compared with 18,980,866 barrels in September, 1957. Receipts of crude oil during the current month totalled 19,205,663 barrels, including 8,260,703 barrels of imported oil and 10,944,960 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 22,512,194 barrels compared with 23,202,595 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in September, 1958, comparable figures for corresponding month of 1957 in brackets, all figures being in barrels of 35 Imperial gallons; naphtha specialties, 144,094 (121,265); aviation gasoline, 395,768 (289,917); motor gasoline, 8,710,054 (8,034,088); aviation turbo fuel, 361,663 (299,338); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 953,376 (711,902); diesel fuel, 2,091,799 (1,869,399); light fuel oil (Nos. 2 and 3), 2,079,152 (1,996,644); and heavy fuel oil (Nos. 4, 5 and 6), 3,839,944 (3,749,788).

### Explanatory Notes

- Note:
1. Effective January and June 1958 the reports in this series reflect a major change in concept involving the treatment of import data - see "Explanatory Notes" in January and June 1958 reports for details.
  2. Import totals shown in Table 3 were developed from actual data supplied by respondents in September with an adjustment involving July data supplied by the External Trade Section.

### Revisions:

## REFINED PETROLEUM PRODUCTS

October, 1958

Output of refined petroleum products in Canada during October, 1958 totalled 21,186,434 barrels compared with 19,761,678 barrels in October, 1957. The total for the month under review included 7,780,548 barrels of motor gasoline, 51,197 barrels of aviation gasoline, 3,735,339 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,867,874 barrels of diesel fuel, 3,399,782 barrels of light fuel, 970,014 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 314,896 barrels of aviation turbo fuel, 3,066,784 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 21,039,655 barrels of crude oil during October, 1958, compared with 19,583,640 barrels in October, 1957. Receipts of crude oil during the current month totalled 21,987,142 barrels, including 10,621,342 barrels of imported oil and 11,365,800 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 23,220,898 barrels compared with 24,035,418 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in October, 1958, comparable figures for corresponding month of 1957 in brackets, all figures being in barrels of 35 Imperial gallons; naphtha specialties, 133,920 (121,343); aviation gasoline, 293,308 (296,523); motor gasoline, 8,406,380 (7,877,532); aviation turbo fuel, 384,880 (289,438); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 1,349,303 (1,412,625); diesel fuel, 2,153,815 (2,077,021); light fuel oil (nos. 2 and 3), 3,834,657 (3,239,274); and heavy fuel oil (Nos. 4, 5 and 6), 3,884,171 (4,433,528).

### Explanatory Notes

- Note:
1. Effective January and June 1958 the reports in this series reflect a major change in concept involving the treatment of import data - see "Explanatory Notes" in January and June 1958 reports for details.
  2. Import totals shown in Table 3 were developed from actual data supplied by respondents in October with an adjustment involving August data supplied by the External Trade Section.

Revisions - September, 1958

Vol. 13—No. 11

## REFINED PETROLEUM PRODUCTS

November, 1958

Output of refined petroleum products in Canada during November, 1958 totalled 20,-926,005 barrels compared with 18,519,587 barrels in November, 1957. The total for the month under review included 7,618,030 barrels of motor gasoline, 70,425 barrels of aviation gasoline, 3,818,381 barrels of heavy fuel oil (Nos. 4, 5 and 6), 1,773,218 barrels of diesel fuel, 3,087,009 barrels of light fuel, 1,454,212 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 381,775 barrels of aviation turbo fuel, 2,722,955 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 20,786,290 barrels of crude oil during November, 1958, compared with 18,361,153 barrels in November, 1957. Receipts of crude oil during the current month totalled 21,574,447 barrels, including 9,855,820 barrels of imported oil and 11,718,627 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 23,-555,682 barrels compared with 23,792,031 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in November, 1958, comparable figures for corresponding month of 1957 in brackets, all figures being in barrels of 35 Imperial gallons; naphtha specialties, 109,865 (113,550); aviation gasoline, 218,635 (230,828); motor gasoline, 6,998,981 (6,803,741); aviation turbo fuel, 325,165 (266,165); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 1,924,514 (1,549,386); diesel fuel, 1,750,533 (1,776,034); light fuel oil (nos. 2 and 3), 5,424,493 (5,541,854); and heavy fuel oil (Nos. 4, 5 and 6), 4,014,178 (4,771,009).

### Explanatory Notes

Note:

1. Effective January and June 1958 the reports in this serie reflect a major change in concept involving the treatment of import data - see "Explanatory Notes" in January and June 1958 reports for details.
2. Import totals shown in Table 3 were developed from actual data supplied by respondents in November with an adjustment involving September data supplied by the External Trade Section.

## REFINED PETROLEUM PRODUCTS

December, 1958

Output of refined petroleum products in Canada during December, 1958 totalled 22,105,475 barrels compared with 19,652,642 barrels in December, 1957. The total for the month under review included 8,081,281 barrels of motor gasoline, 43,461 barrels of aviation gasoline, 4,303,669 barrels of heavy fuel oil (Nos. 4, 5, and 6), 1,490,674 barrels of diesel fuel, 3,799,255 barrels of light fuel, 1,541,204 barrels of kerosene, stove oil (No. 1 fuel oil) and tractor fuel, 340,940 barrels of aviation turbo fuel, 2,504,991 barrels of naphtha specialties, and other refinery products such as lubricating oils, asphalt, coke, liquefied petroleum gases, etc.

Refineries in Canada used 21,926,297 barrels of crude oil during December, 1958, compared with 19,485,072 barrels in December, 1957. Receipts of crude oil during the current month totalled 21,949,585 barrels, including 9,181,978 barrels of imported oil and 12,767,607 barrels from Canadian sources of supply. Inventories of crude at the end of the month amounted to 23,515,252 barrels compared with 22,566,035 barrels on the corresponding date of last year. These figures include stocks held at the field, in pipeline systems and in refineries.

Net sales of liquid petroleum fuels in Canada, as computed from production, imports, exports, changes in inventories, etc., were as follows in December, 1958, comparable figures for corresponding month of 1957 in brackets, all figures being in barrels of 35 Imperial gallons; naphtha specialties, 118,116 (114,206); aviation gasoline, 272,876 (261,651); motor gasoline, 7,250,161 (6,352,747); aviation turbo fuel, 309,209 (245,568); tractor fuel, kerosene and stove oil (No. 1 fuel oil), 3,046,014 (1,968,810); diesel fuel, 1,947,321 (1,608,084); light fuel oil (nos. 2 and 3), 10,405,036 (7,199,473); and heavy fuel oil (Nos. 4, 5 and 6), 5,046,824 (4,160,021)

### Explanatory Notes

- Note:
1. Effective January and June 1958 the reports in this series reflect a major change in concept involving the treatment of import data - see "Explanatory Notes" in January and June 1958 reports for details.
  2. Import totals shown in Table 3 were developed from actual data supplied by respondents in December with an adjustment involving October data supplied by the External Trade Section.
